DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-24 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. A nanoclay have to have dimensions of less than micron, i.e. its dimensions have to be measured with nanometers. Applicants' particles are not nanoscale particles. The treatment of the particles is not described, and one of ordinary skill in the art would not know whether to treat the clay particles with a polymer or with axle grease in order to make them hydrophobic. "Modified' covers a multitude of sins. Judging from applicants' description, montmorrillonite particles, which are not intercalated, would work if they were ground to a particle size of one micron, which is clearly not the case, judging from the cited references.

Claim Rejections - 35 USC § 103

- 2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 3. Claims 1-9, 11, 14-20, 23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sibilia 5,310,775, in view of Beall et al. 5,578,672, further in view of Kawasumi et al. 4,810,734, Vaia et al. 5,955,535 or Elllsworth 5,962,553
- 4. Claims 10,12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sibilia et al. 5,310,775, in view of Beall et al. 5,578,672, further in view of

Kawasumi et al. 4,810,734, Vaia et al. 5,995,535 or Ellsworth 5,962,553, and even further in view of Kutnyak et al. 4,356,284 or Thulliez et al. 6,054,538.

5. Claims 21 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sibilia et al. 5,310,775, in view of Beall et al. 5,578,672, further in view of Kawasumi et al. 4,810,734, Vaia et al. 5,995,535 or Ellsworth 5,962,553, and even further in view of Day et al. 6,217,797 or Day et al. 6,355,277.

Response to Arguments

6. Applicant's arguments filed 06/18/02 have been fully considered but they are not persuasive. The "Fluoropolymers" of Mr. Scheirs notwithstanding, applicants define their claimed fluoropolymers as "flouroelastomers" in their own specification. See the Title, page 1, lines 6, 11 and 24, page 2, lines 6 and 29, page 3, line 28, page 4, line 3 and page 6, line 4. Thus applicants, who can be their own lexicographers, defined flouroelastomers as being included in their application. Applicants' claims are directed to a composition, which comprises nanoclay and fluoropolymer. As long as this composition is disclosed by the cited references, it is assumed the identical compositions will have identical properties, that is the properties are inherent in the composition. As far as the new claims are concerned, Vaia et al. teach PVDF in column 2, line 29, and the two patents by Day et al. reveal the blend of PVDF and melamine octamolybdate in Table 5. See also claims 2 and 7 of the ('277) patent. These disclosures make the inclusion of melamine octamolybdate patently obvious.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is 703-308-2460. The examiner can normally be reached on Tuesday-Friday 7:00 a.m.-5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 703-306-2777. The fax phone numbers for the organization where this application or proceeding is assigned are 703-873-9311 for regular communications and 703-872-9310 for After Final communications.

Art Unit: 1714

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.
